To Whom It May Concern,

I oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

This restriction will put undue stress on many patients particularly in rural areas who do not have access to local compounding pharmacies and require specialized prescriptions.

If you have further questions or if you would like me to explain this in more depth, please do not hesitate to contact me.

Sincerely,

Dixie J. Mills, MD, FACS
